## ABOUT ME

I am an IT professional with experience in managing network maintenance and support systems, particularly using Mikrotik. I am detail-oriented and proactive in ensuring network stability and security. In addition to my technical expertise, I have experience working in the General Affairs department, handling administrative and operational support to ensure smooth company operations. I am passionate about improving IT infrastructure efficiency and continuously learning new technologies.

## EDUCATION

2017–2019

BSI

### Teknik Informatika

Focused on computer networking, including Mikrotik configuration, static and dynamic routing, firewall, NAT, Debian server, and hardware/software troubleshooting, as well as hotspot and access point implementation.

2019 – 2021

Nusa Mandiri

### Teknik Informatika

Specialized in IT system audit, design, programming, and project development using Arduino and automation systems.

## EXPERIENCE

2019 – 2021

BPRS ARTHA MADANI

### IT Support & GA

Handled network installation and hardware maintenance at head office and branches.

Resolved computer, printer, and connectivity issues.

Assisted the administration department with technical and system documentation. Performed regular maintenance and data backups for internal databases.

2022 – 2023

PAPER.ID

### IT SUPPORT

Installed and configured network systems for new client offices.

Handled troubleshooting and provided technical support for network and server systems.

Evaluated network security and recommended system improvements.

Assisted in client website development and maintenance.
